Special Dietary Needs

Georgia Highlands dining team and our corporate wellness dietitians will work with students to help manage food allergies and specialty diets. Please let us know of any dietary restrictions or food allergies by emailing us to set up an apt. We will work with students on dietary substitutions by reviewing menus with students who have food allergies to determine what, if any, menu items need to be substituted.

Aladdin Campus Dining is committed to bringing nutritious food to the table and making the healthy choice an easy choice for all our dining guests. We created BeWell to make it easier for you to choose well. First, our BeWell eating approach combines the latest in nutrition science and culinary trends to create a crave-worthy, nutritious menu choice. Second, our BeWell wellness approach encourages positive behavior change through our promotions, wellness education programs, and partnerships. BeWell is incorporated with End2End; an interactive menu program which highlights healthier options and provides the most current nutritional information for daily menus. Look for the blueberry symbol on our menus for a BeWell option!

BeWell recipes must meet three out of the following five categories:

Plant-based

Healthy Fat

Lean protein or plant-based protein

Limited added sugar

High fiber or a probiotic food

Our BeWell recipes will always:

Be trans-fat free

Use minimally processed ingredients

Be mindful of added sodium and portion size
